

Hiking Eastern Santa Cruz Island

Several trails and roads traverse eastern Santa Cruz Island, providing visitors with spectacular hiking opportunities. These trails and roads range from the maintained, relatively flat, signed trails of Scorpion Valley to the unmaintained, rugged, mountainous paths of the Montañon area. Hikers need to assume individual responsibility for planning their trips and hiking safely. To increase your odds of a safe hike, decrease your disturbance to wildlife, and lessen damage to resources, visitors should be in good physical condition and must follow the regulations and guidelines in the “Limiting Your Impact” section of the park newspaper and those listed below:

- Stay on trails and roads while hiking—avoid animal trails which are narrow, uneven, unstable, and dangerous.
- In order to help prevent wildfires, do not smoke on trails or in brush areas. Smoking is allowed only on beaches.
- Cliff edges should be avoided at all times since they tend to be crumbly and unstable. Stay well back. Children should be supervised.
- No hiking is allowed beyond the National Park boundary onto The Nature Conservancy property. The boundary is the property line (marked by a fenceline) between Prisoners Harbor and Valley Anchorage.
- Hikers should never hike alone—use the buddy system. This allows someone to go for help if you encounter trouble.
- When departing from the islands, visitors are responsible for meeting the boat concessionaire on time. Be aware of departure time by asking the ranger or concessionaire employees.
- Carry plenty of water and drink it. One quart for short walks, more for longer hikes.
- Pack out what you pack in, including your trash. There are no trash cans on the island so please take your garbage with you. Also, please secure your food and trash at all time from animals.
- Be aware of poison oak, “jumping” cholla cactus, ticks, and scorpions. Poison oak can be identified by its clusters of three shiny leaflets. Some ticks carry disease; check your clothing and exposed skin after hiking.
